Career Objective

I am a motivated Computer Science and Engineering graduate from Daffodil International University with basic skills in UI/UX design, web technologies, machine learning and Project Management. I have hands-on experience designing user-centered digital products using Figma, as well as building and deploying AI-based solutions for image classification and data-driven applications. I have worked on real-world projects involving UI/UX design and web development, gaining practical experience in teamwork, problem-solving, and client-focused solutions. I am passionate about creating intuitive digital experiences and leveraging technology to solve real-life problems, and I am eager to grow as a professional in the tech industry.
